AMENDMENT

This amendment is in response to the Official Action dated May 28, 2003. Please amend the application as follows:

in Germany -  
mobile - receiving  
device  
→ Attorney

IN THE CLAIMS:

Amend claims 1, 2 and 9-11. Claims 1-12 remain as follows:

1.(Amended) A mobile receiving device for receiving video/audio high frequency signals, said mobile receiving device comprising:

at least two ~~television~~ channel selection devices for converting the video/audio high-frequency signals into intermediate frequency signals;

at least two video demodulation devices to convert said intermediate frequency signals into video signals;

at least two audio demodulation devices to convert said intermediate frequency signals into audio signals; and

an intermediate frequency switching device that selectively connects said at least one of said audio and video demodulation devices to said television-channel selection devices in response to a
